

CONSTRUCTION BULLETIN

WORK SCHEDULED ON SR-98

Construction crews will be paving and widening the shoulders on State Route 98 (SR-98) at two locations. The first location on SR-98 is at west of the Community of Ocotillo to just east of Drew Road. The second location is just east of the City of Calexico to just west of Evan Hewes Highway.

Work at both locations will begin early February and is expected to be completed winter of 2002, weather permitting. The hours of operation will be 7 a.m. – 5 p.m., Monday through Friday.

There will be one lane open and one-way controlled traffic during construction of this portion of highway. Traffic delays are expected and motorists should consider using an alternate route if possible. Some night work may be necessary during this portion of construction.

This project is necessary to extend the life of the road and to help provide motorists with a smoother ride along State Route 98.

We ask for your patience and understanding during this much needed work. If you have any questions, please contact Construction Information Officer Marlene Davis at 619/688-6939 or the Resident Engineer, Sandro Bermudez at 760/344-0376.
